MONTHLY DC BIKE PARTY TO HOLD THIRD RIDE WEDNESDAY, SEPTEMBER 12

*-Rapidly Growing Cycling Community to Explore Nation's Capital from Dupont Circle
to RFK Stadium to Adams Morgan-*

WASHINGTON, DC – Continuing efforts to capitalize on Washington, DC's large community of cycling enthusiasts, build friendships with like-minded individuals, and explore our nation's capital, [DC Bike Party](#) will hold its third once-monthly riding event this Wednesday, September 12. The event, which held its first ride in July of this year, grew to nearly 40 attendees participating last month.

The group, this time departing from Dupont Circle, will set out to complete an approximately 11-mile ride, visiting some of the city's main landmarks and attractions before ending with a celebration at Millie and Al's in Adams Morgan. From Dupont Circle, the Bike Party will ride past the White House, the U.S. Capitol, and RFK Stadium before heading north through the city's historic neighborhoods. A map of the complete route is available at <https://t.co/bGw8NMeL>. Riders are welcome to join or depart the group at any point.

"This free event is a phenomenal opportunity to explore the place many of us now call home while building friendships among DC residents of all backgrounds," said Andrew Ricci, Communications Chair for DC Bike Party. "After a successful first two events, we look forward to continuing to grow this community on Wednesday and well into the future."

About DC Bike Party:

The DC Bike Party is a once-monthly party ride around our Nation's Capitol, with the route's starting and ending points rotating every month. The District's biking community, much like the city itself, is growing rapidly, and DC Bike Party's goal is to be a positive part of this growth. Each month, the event sets out to explore the city via bicycle, featuring an ever-changing route, new playlist for the ride, and a new post-ride bar. All post-ride outings are 21 and older. The DC Bike Party is a place to ride bikes, make friends, and have a real cool time.
